# Past Show Report

The 81st China International Medical Equipment Fair (CMEF Spring 2019)  
The 28th International Component Manufacturing & Design Show (ICMD Spring 2019)  
The Health Industry Summit

The future has come. The constant advancing technology has brought us into a brand-new futuristic wonder. In the medical and healthcare sectors, leading-edge technologies such as AI, robotics, big data, deep learning, blockchain, AR/VR and 3D printing are widely applied to give rise to game-changing innovations, pushing industrywide evolution at an accelerating pace.

CMEF, as a highly curated global platform to showcase technological innovations in medical and healthcare sectors, has brought forward a theme of ***Intelligence Reshapes the Future*** to propel and spearhead these sectors and the trend of times at the National Exhibition Center (Shanghai) during May 14-17, 2019. Driven by the intelligent technology core, the expo will reveal a new medical niche amid technological reform and redesign to knock on the door to the future.

# Intelligence Reshapes Exhibition Overview the Future

# 01 More Than 1000 New Products Making Global Debut

# 02 A Close Experience of Intelligent Health and Rehabilitation & Family Healthcare Technology

# CMEF Featured Country Day: Enabling National Brands From a Variety of Countries to Get High Attention

At the CMEF Spring 2019, the CMEF team has held the Featured Country Day for UK, Norway, Italy, Malaysia, etc. during the show date. The aim of the Featured Country Day is to provide opportunities for international exhibitors to show their leading and featured products to visitors, and in a manner to provide a panoramic interpretation of the development trend of the industry on CMEF Spring, which is the grand gathering of distributors & agents in the field of medical equipment in Asian-Pacific Region.

# 04 The Billion Order From the Non-public Medical Devices Purchasing Conference

In order to accelerate the process of medical modernization, promote the implementation of national strategies and optimize the allocation of medical resources, CMEF and the China Non-Public Medical Association-Doctor Group Branch have held the "Non-public Medical Devices Purchasing Conference" in CMEF Spring 2019.

# 05 The Gateway to Medical Equipment in Asian-Pacific region for International Buyers and Sellers

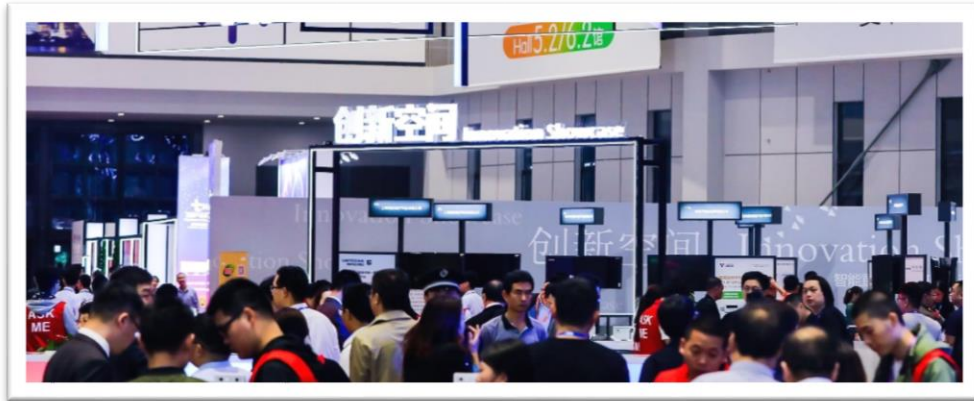

In order to promote commerce & trade exchanges between suppliers and manufacturers for medical devices, spare parts and services, the CMEF team has held international market matchmaking events with:

- International microtechnology business network
- U. S Department of Commerce (USDOC)
- North Rhine-Westphalian Pavilion
- Nanotechnology and New Materials Trade Association
- Biomedical and Medical Devices China Study Group in Spain Catalonia Autonomous Region
- Related Bavarian organizations, Korean organizations and other international groups

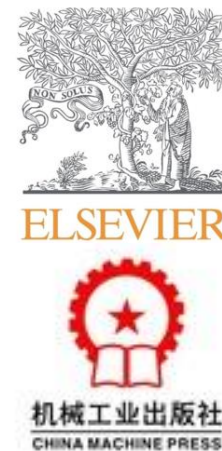

# Innovation Showcase & CMEF Bookstore Focusing on Globally Leading Scientific and Technological Achievements

During the exhibition, the Innovation Showcase has gathered cutting-edge innovative product clusters including AI, medical robots, human-computer interaction, intelligent manufacturing, chips and new materials and technologies which have been recognized as Special Achievements by the Ministry of Science and Technology of the People's Republic of China.

The CMEF team, in conjunction with Elsevier and China Machine Press, launched book sharing activities involving more than 160 good books of the industry. Besides, it has been launched a series of "Precision Medicine" books which was focused on industry hotspots from the frontier knowledge to practical exploration, so as to promote the rapid development of the industry by the power of knowledge.

# 07 Over 60 Forums Led by Academicians to Decode the Future Trend of the Industry

As an integral part of CMEF, the forum will be further upgraded both in terms of the theme as well as the quality and quantity of attending guest. The CMEF team has worked with 5 academicians in the industry and over 460 KOLs from China Association of Medical Devices Industry, Chinese Medical Association, Chinese Association of Medical Equipment, U. S Department of Commerce and other government departments and industry organizations to present 61 high-end academic forums.

**Yazhu Chen**  
Academician of  
Chinese Academy of  
Engineering

**Jianping Dai**  
Foreign Academician of  
the American Academy of  
Medical Sciences

and Clinical Engineering  
NHS Tayside

## **Forums & Conference List** (Part)

- The 4<sup>th</sup> China International Clinical Engineering Forum for Innovation and Development
- IVAM Session "High-Tech for Medical Devices"
- The 2<sup>nd</sup> International Medical transformation innovation and Entrepreneurship Competition (Quarter-Final)
- Intelligent Healthcare Forum
- Brainstorm Forums
- Innovative Development Forum of China Non-public Medical Institutions
- Artificial Intelligence Forum
- China Physician Prospects Forum
- 2019 the 4<sup>th</sup> China Clinical Medical Imaging Summit & J10 Summit
- 2019 the 10<sup>th</sup> IVD Industrial Summit
- The 5<sup>th</sup> ICE International Medical Equipment Standard Forum - Medical Device Standards in the Digital Age
- China-US Summit for Risk Assessment of Medical Equipment Lifecycle

# Intelligence Reshapes CMEF on Data the Future

- **4319** Exhibitors
- **117,159** Visitors
- **22** International Pavilions with Products from **36** Countries and Regions
- **35** Domestic Pavilions
- **61** Academic Forums
- **4** CMEF Featured Country Day Programs
- **1,000+** New Product Releases
- **36** Representatives of China National Brand

# Intelligence Reshapes Visitor Analysis/Why Visiting the Future

## 1. Medical Imaging

Radiation, Ultrasound, Nuclear Medicine, Intervention, etc.

## 2. IVD

Overall Laboratory Solution, Diagnostic Reagent, Clinical Diagnosis Device, POTC, Household Diagnostic Device, etc.

## 03. Intelligent Health

Information System, Mobile Healthcare, AI, Big Data & IoT, Wearable Device, VR&AR, 3D Printing, etc.

## 04. Orthopedics

Orthopedics Consumables, Orthopedics Surgical Equipment & Orthopedic Power Tools, etc.

### Visitor satisfaction

98.57%

Audiences are very satisfied with the results of visiting the exhibition.

### Rate of return

97.1%

CMEF Autumn 2019

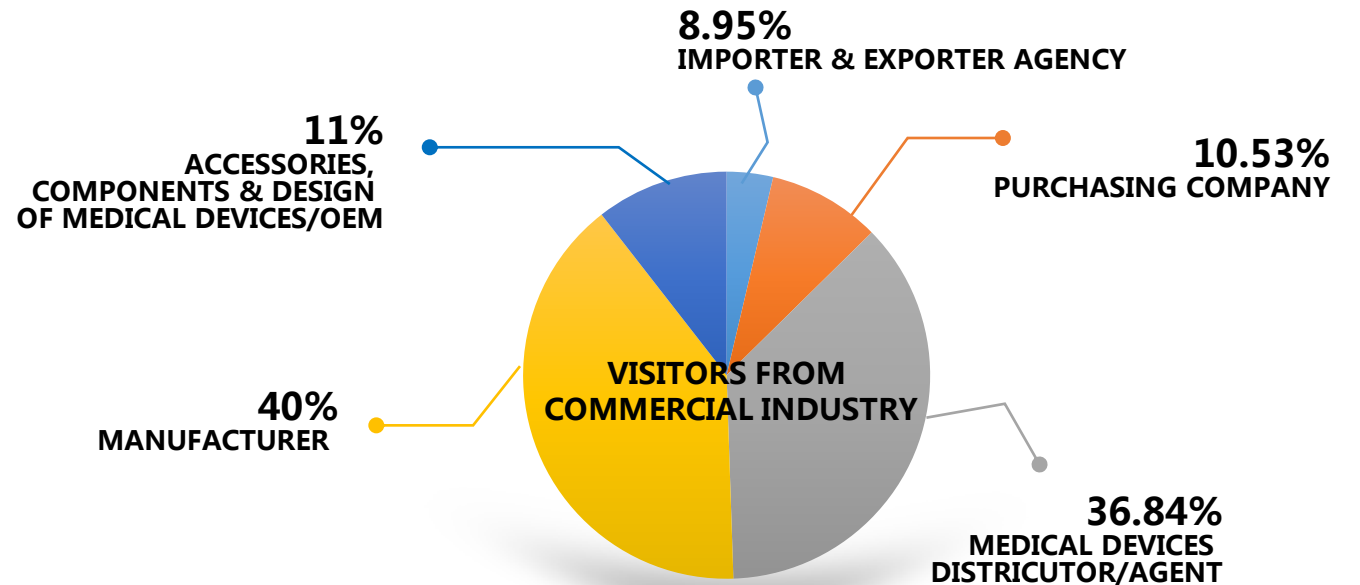

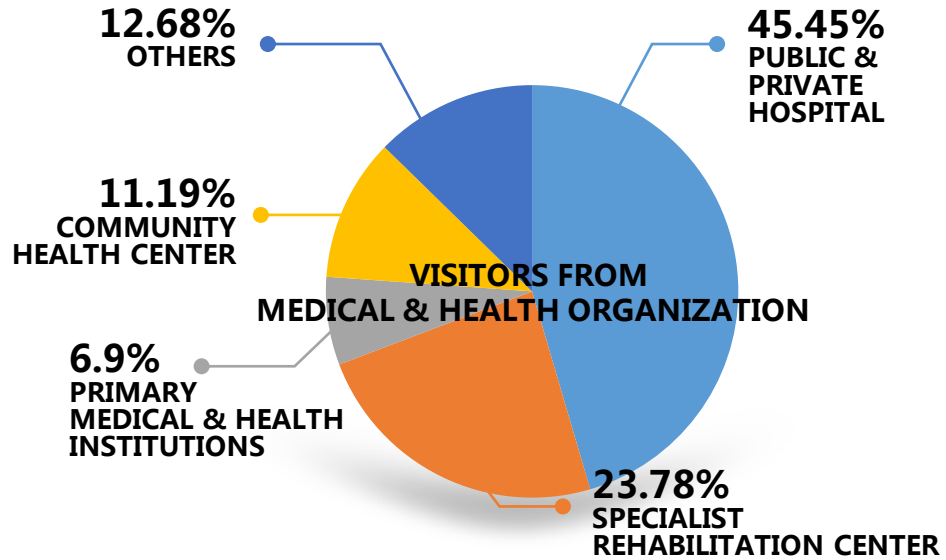

See you again in Qingdao this June!

### Visitor recommendation

91.3%

Audiences are willing to recommend the exhibition to the peers.

# Intelligence Reshapes Visitor Analysis the Future
